SUBJECT INDEX TO VOLUME 42

Acrylamide affects Na-K ATPase and PKC, 331
Alveolar macrophage cytotoxicity in vitro, 407

Benzene-induced leukemia, 219

Cadmium, effect on rat testis and epididymis, 323
Cadmium toxicity, effect of chlorpromazine pretreatment, 193
Carbaryl and the humoral immune response, 143
Carbofuran in rats, acute effects of, 451
Cytotoxicity in the absence of NAD loss, 393

Developmental toxicity
of essential metals, 129
of metals, chelating agents and prevent, 134
of therapeutic metals, 132

Embryotoxicity and teratogenicity of toxic elements, 125
Environmental formylmethionyl-peptides, measurement of, 275

Fetal hematopoietic alterations by benzo(a)-pyrene, 259
Fluoride concentrations in drinking water, association with low birth rates, 109
Fungal metabolism of 3-nitrofluoranthene, 209

Gas plant residue ingestion, biochemical effects, 89

Hematologic and serum chemistry data for rhesus monkeys, 53
Hyperresponsiveness, ozone and antigen-induced, 435

Lead oxide, effect on macrophage turmor necrosis factor-alpha, 377
Lead-glazed ceramics and blood lead levels, 45

Manganese toxicity, muscarinic receptors in, 185
Marine phytoflagellates, toxicity of, 289
Mercury, renal transport and toxicity, 1
Mercury-induced renal autoimmunity, manipulation of, 303
Metal-induced developmental toxicity in mammals, 123
Monoisoamyl dimercaptosuccinate, toxicity of, 443
Muconic acid, evaluation of assays for the identification and quantitation of, 245

Ozone exposure, 437

Peripheral neuropathy V. axonal transport, 343
Polychlorinated biphenyls, influence on growth of chicken embryos, 357
Polychlorinated biphenyls and organochlorides in human milk, 157
Predictive accuracy in risk assessment, 367

Quinolone and cartilage lesions in rats, 73

Rifle emissions, mutagenicity of, 423

Thyroxine and retinol, fasting and HBBP effects on plasma transport of, 173
